EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jay Williams on 10/16/2009.

The application has been amended as follows:

Cancel claims 3, 11 and 12.

2. The following is an examiner's statement of reasons for allowance: Conventional focusing of cells, passing from a relatively broad to narrow channel through a funnel or nozzle often creates blockage of cells at the entrance to the narrow channel owing to the symmetrical deflection of cells along opposite walls leading to simultaneous deflection of cells and crowding at the entrance to the narrow portion of the channel. Inventors find that a small asymmetry in the onset of inclination in opposite walls at the funnel/nozzle, of a magnitude on the order of the diameter of the particles being focused, results in fewer blockages at the entrance of the narrow channel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1797

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TIMOTHY G. KINGAN whose telephone number is (571)270-3720. The examiner can normally be reached on Monday-Friday, 8:30 A.M. to 5:00 P.M., E.S.T.
